

# Istvan Szasz

Developer & University student

## EDUCATION

2014 - 2019 Specialisation in Computer Science  
Bálint Márton Szakközépiskola (Törökbálint)

Studied Computer Science in High School as specialization. Learned the basics of programming and database management.

2019 - Computer Science Engineer  
Óbuda University Alba Régia Műszaki Kar

Expanded my Computer Science Engineering knowledge with new programming languages and frameworks. Learned about Programming batches and languages, Data analysis, Database Management, 3D Game Development, Web and Mobile App Development.

2023 Web Development Course  
Udemy - Online Course

Completed an Online Course on Udemy's website about Web Development. This course helped me expanding my knowledge in the area of Web Development. Through the course, I learned about styling, functional programming and Javascript Frameworks. My Javascript knowledge reached a higher level with this course.

## WORK EXPERIENCE

NO WORK EXPERIENCE YET ON IT FIELD.

## LANGUAGES

MAGYAR / HUNGARIAN

ANGOL (B2) / ENGLISH

## HOBBIES

Gaming

Music

Movies

3D develop

## ABOUT ME

I'm István Szász. 23 years old Developer from Hungary. I am currently a graduate student of Computer Science Engineering at the University of Óbuda. I am always open to learn about new technologies, that's why I'm expanding my IT knowledge outside the university with online courses. I am currently working on my university thesis using Unreal Engine 5. In my free time I usually learn about programming, hang out with my friends, doing free time activities playing video games, watching movies or TV series.
